Tools & Platforms: Git and Github - NPM

Design & UX: Adobe illustrator - Adobe Photoshop - Figma - Blender

Other: Bilingual(English & Spanish) - Responsive Web Design - APIs - Office 365

Experience

July 2024 - Current

Exercise App Website – *Frontend Developer – UI UX design*

- Designed using Figma as its base
- Created using React.js and its main purpose was to advertise the website's app
- Further work will have a React Native portion and link to download the app

June 2024 - July 2024

Delivery Website – *Frontend Developer – UI UX design*

- Designed using Figma as its base
- No frameworks is used here as a practice to html, css, and Javascript
- Responsive Website only using the 3 mentioned languages
- Custom Designed Images using Adobe illustrator

June 2023 - June 2023

Landscaping Landing Page (2023) – *Frontend Developer*

- Revamp Version of last year's landscaping website with a more modern look to it.
- Using the Previous Technologies and improving on the design of the landing page.

August 2023 - December 2023

NFTs FancyOrcas – *Full-Stack Developer – Media Management – Graphic Design*

- A Followup to the previous job. Making a crypto NFT (ERC-721)

- I created the art and its variants using adobe illustrator
- Used a library called Hashlips to generate the NFTs a total of 6000 and implemented to their website

May 2023 - July 2023

CryptoCoin FancyOrcas – *Full-Stack Developer – Media Management – Graphic Design*

- Hired as a Fullstack developer for a crypto project to create the coin and website with a launch for the coin (ERC-20)
- Using Solidity and OpenZeppelin to create and deploy the coin

July 2022 - September 2022
